

Careful study and effort has gone into the redesign of the new healthcare plans. Effective January 1, 2018, your employer through the Ascend to Wholeness Healthcare Plans (Plan) is offering two choices, which include new features and enhanced customer service.

The Plans enable members to get the right care at the right time to avoid preventable conditions, as well as manage conditions that may already exist. They are not designed to discriminate against the sick to deny them care. Quite the contrary: the health plans are designed to extend preventive services and care coordination to those who are most in need.

You can choose either Accelerate Plan or the Access Plan. More information is contained in the 2018 Plan Guide and the www.AscendToWholeness.org website.

Changes 2018

The plan names and benefits have changed. The new plans are the Accelerate and Access. This document is a summary of the Plans.

- The Accelerate Plan includes new services for you, investing in your wellness through care coordination.
- Medical benefit services will only be covered in the Aetna Signature Administrators network. Out-of-network care — other than emergencies — will require pre-authorization by the Plan. If specialized care is unavailable at an in-network facility, please contact member services for additional assistance. It is your responsibility to verify the medical provider you are going to is in the Aetna Signature Administrators Preferred Provider Organization. As outlined in the summary of benefits to follow, alternative therapies (massage, acupuncture, chiropractic), refractive eye surgery, hearing aids and infertility treatments will not require in-network services.
- Your Medical and Prescription benefits Maximum-Out-of-Pocket (OOP) accruals continue to include coinsurance, but will now also include deductibles and co-payments. This means you will reach this maximum faster, allowing for the plan to pay at 100% after that.
- Your Medical and Prescription benefits Maximum-Out-of-Pocket responsibilities have changed, as noted below. No combination of your medical and prescription benefits OOP will exceed the max allowable by the Affordable Care Act (ACA).
